

When using a sack trolley

Heavy or unhandy loads should be put on wheels before moving them. Here you will find good advice on how to best move heavy and difficult loads using a sack trolley.

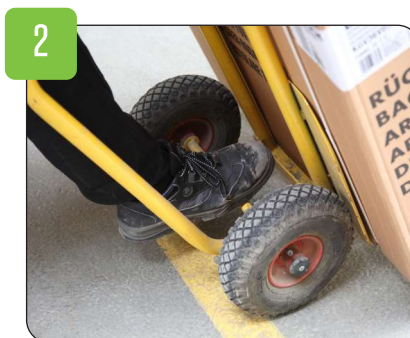

Tip the box slightly forward and push the platform of the sack trolley under it.

Get a good hold with both hands at the top of the box and tip the box towards yourself.

Tip the box slightly forward and push the platform of the sack trolley under it.

Block the sack trolley with one foot to prevent it from moving backwards.

Tip down the box until it is balanced and the weight is resting on the trolley wheels.

Remember!

- ▶ Avoid carrying heavy loads.
- ▶ Tip, push and pull the box into place.
- ▶ Get a good hold with both hands.
- ▶ Ensure a good balance and make sure the weight is on the trolley wheels.
- ▶ Use a sack trolley in cramped spaces and on uneven surfaces.
- ▶ Sack trolleys are not suitable for boxes that are heavy at the top.
